

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
2. Applicant's comparative data as presented in the specification and the rule 132

Declaration filed 9/11/08 indicates unexpected retention of flexibility attributable to a molar ratio range of 3% to 25 % for 3HH, where less than 3% of 3HH leads to flexibility loss and unacceptably high processing temperature for forming films and more than 25% of 3HH results in an unacceptably slow crystallization rate.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kriellion A. Sanders whose telephone number is 571-272-1122. The examiner can normally be reached on Monday through Thursday 8:30am-7:00pm.
